After Compliments and Greetings,

Dear Sirs,

Sub: Re-Validation of Pre-qualification of M/s. Nuhas
Oman LLC, Sultanate of Oman, for the supply of
Low Voltage Power & Street Lighting Cables

The Ministry of Electricity & Water (MEW) acknowledges the receipt of your letter No. GI/5052/15/2Z dated 8th December 2015 on the above subject and in reply would like to confirm that the pre-qualification of your principal, M/s. Nuhas Oman LLC, Sultanate of Oman, with this Ministry for the manufacture and supply of low voltage power and street lighting cables is hereby re-validated without any fixed term period now and until further notice. The pre-qualification however will not relieve any manufacturer from offering materials as per the specification and requirements of each tender as issued by the Ministry that might change from time to time as seen fit. In case of supply of materials against any order or contract for any of the above items, you have to submit full technical details, dimensional drawings, copies of type test certificates, necessary guarantees, samples, etc. for study and approval by the Ministry before starting up with any bulk manufacturing, which please note.

Thanking you,

Yours faithfully,

UNDERSECRETARY
MINISTRY OF ELECTRICITY & WATER
