DNV·GL

Certificate No: TAE00003N7

# **TYPE APPROVAL CERTIFICATE**

This is to certify: **That the Electric Power Cable** 

with type designation(s) BFOU P5 0,6/1kV, BFOU P5/P12 0,6/1 kV

# Issued to Nuhas Oman LLC Sultanate of Oman, Oman

is found to comply with DNV GL rules for classification – Ships, offshore units, and high speed and light craft

#### **Application :**

General power and lighting. Fire resistant.

Products approved by this certificate are accepted for installation on all vessels classed by DNV GL.

| Туре                 | Rated voltage (kV) | Temp. class (°C) |
|----------------------|--------------------|------------------|
| BFOU P5 0,6/1kV      | 0,6/1              | 90               |
| BFOU P5/P12 0,6/1 kV | 0,6/1              | 90               |

Issued at Høvik on 2019-09-10

for DNV GL

This Certificate is valid until **2023-12-31**. DNV GL local station: New Building Dubai

Approval Engineer: Ivar Bull

Trond Sjåvåg **Head of Section** 

This Certificate is subject to terms and conditions overleaf. Any significant change in design or construction may render this Certificate invalid. The validity date relates to the Type Approval Certificate and not to the approval of equipment/systems installed.

Job Id: 262.1-032020-1 Certificate No: TAE00003N7

#### **Product description**

Type: BFOU P5 0,6/1kV or BFOU P5/P12 0,6/1 kV

| Construction:    |   |
|------------------|---|
| Conductors:      | Tinned stranded copper class 2 or class 5 |
| Core insulation: | Mica tape + EPR or HFEPR                  |
| Bedding:         | Halogen free compound                     |
| Metal covering:  | Tinned copper wire braid                  |
| Outer sheath:    | SHF2 or SHF Mud                           |

| No of cores:      | Cross sectional area [mm <sup>2</sup> ] |  |
|-------------------|---|--|
| 1                 | 16 - 630                                |  |
| 2                 | 1,5 -120                                |  |
| 3, 4              | 1,5 - 300                               |  |
| 5                 | 1,5 - 120                               |  |
| 7, 12, 19, 27, 37 | 1,5 - 2,5                               |  |

## **Application/Limitation**

This type of cable is fire resistant in accordance with IEC Publication 60331.

The requirements of SOLAS Amendments Chapter II-1, Part D, Reg. 45, 5.2 (provision to be taken to limit Fire Propagation along Bunches of Cables or Wires) are fulfilled without any additional measures.

#### Type Approval documentation

| Data sheet:   | Doc no.: NO/TEC/TP/BFOU/DNV/1kV | Rev.:01 | Date: 28/07/2014 |
|---------------|---------------------------------|---------|------------------|
| Test reports: | dated 25/6-2014                 |         |                  |

#### Tests carried out

|               | Release | General description                      | Limitation                |
|---------------|---------|--|---------------------------|

## Marking of product

Nuhas Oman LLC - BFOU P5 or P5/P12- size - 0,6/1 kV - IEC 60331 - IEC 60332-3-22 - Lot No

#### **Periodical assessment**

The scope of the periodical assessment is to verify that the conditions stipulated for the Type approval are complied with and that no alterations are made to the product design or choice of materials.

The main elements of the assessment are:

- Inspection on factory samples, selected at random from the production line (where practicable)
- Results from Routine tests (RT) and selected type tests (ref. to applicable class programs) checked (if not available these tests shall be carried out)
- Review of type approval documentation
- Review of possible change in design, materials and performance
- Ensuring traceability between manufacturer's product type marking and Type Approval Certificate.

Periodical assessment is to be performed after 2 years and after 3.5 years. A renewal assessment will be performed at renewal of the certificate.
